

"DISCOVER NETWORK" appears on the front of all Cards when under an ultraviolet light.

The three-dimensional hologram—a sphere of interlocking rings with an arrow pointer that has "DISCOVER" written in small letters and a repetitive wave and scattered stars background—reflects light, appearing to move as the Card rotates.

Account numbers begin with 6 and have clear and uniform embossing and spacing extending into the hologram.

A Business name may be embossed below the Account name.

The embossed stylized "D" appears on the same line as the "Member Since" and "Valid Thru."

The "Valid Thru" date indicates the last month the Card is valid.

A Discover Network overprint pattern appears on the signature panel, with an underprint reading "VOID."

The last four Account number digits appear on the signature panel in reverse indent printing followed by the three-digit Card Identification Data (CID).

The Discover Network acceptance mark appears in the lower right corner on both sides of the Card. On older Cards, the old Discover/Novus acceptance mark appears.
